PROFESSIONAL SKIN CARE & SPA PRODUCTS

About us

Aesthetic Back Bar makes professional skin care for the people who use it every day. Our formulas are built on naturally derived bases instead of the chemically synthetic ones that are the industry standard, and they're vegan, paraben-free, and free of sulfates and phthalates — with botanicals sourced from growers around the world. Every formula is developed and tested in working treatment rooms and med spas before it reaches your back bar, so we know how it performs on real clients across every skin type. From back bar sizes to retail, samples, and bulk, we stock what a treatment room actually runs through — with private label available at low minimums when you're ready to put your own name on the shelf. Beautiful results for your clients, without costing the skin or the environment.
